MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 49, No. 2

L'viv 2006

CONTENTS

<i>Zabolotsky M. V., Tarasyuk S. I.</i> Lower estimates for the quantity type and lower type δ -subharmonic functions of order less than 1	7
<i>Yonyk L. V.</i> Groups with the minimal condition on non-«finite-by-nilpotent» subgroups	12
<i>Lishchynsky I. I.</i> On derivations of near-rings	17
<i>Pyrch N. M.</i> M-equivalence of pairs and mappings	21
<i>Stasyuk I. Z.</i> Operators of simultaneous extension of partial ultrametrics	27
<i>Babjak-Biletska L. S., Horbachuk O. L.</i> Some many-point problem for an inhomogeneous evolutionary equation of first-order in Banach space	33
<i>Bodnar T. D.</i> Statistical properties of a two-dimensional optimal portfolio	37
<i>Dmytryshyn M. I.</i> The completeness criterions of root vectors of regular elliptic operators	43
<i>Zagorodnyuk A. V., Novosad Z. G.</i> Hypercyclic operators of composition on spaces of analytic functions	48
<i>Chernega I. V.</i> A translation operator in the space of symmetric analytic functions on ℓ_1	52
<i>Kyrchei I. I.</i> Determinantal representation of the Drazin inverse	58
	5

<i>Lopushansky A. O.</i> Calculus in cone of negative type sectorial operators and analytical semigroups	65
<i>Chyzhykov I. E.</i> Generalization of the Hardy – Littlewood theorem	74
<i>Sheremeta Z. M.</i> Properties of the derivatives of an entire solution of a differential equation	80
<i>Podlevs'kyi B. M.</i> Numerical algorithm of the solution of linear multiparameter eigenvalue problems	86
<i>Shakhno S. M., Makukh O. M.</i> About iterative methods in conditions of Hölder continuity of the divided differences of the second order	90
<i>Buhriy O. M., Panat O. T.</i> Some properties of the solutions of a parabolic variational inequalities with variable exponent of nonlinearity	99
<i>Medvid' I. M.</i> Elliptic variational inequality in unbounded domains	108
<i>Portnyagin D. V.</i> Boundedness of weak solutions to nondiagonal singular parabolic system equations	117
<i>Pukach P. Ya.</i> The weight correctness classes of solution of mixed problem in an unbounded domain for nonlinear hyperbolic system	126
<i>Altukhov E. V.</i> Homogeneous solutions of 3D dynamic problems of isotropic plates with boundary conditions of diaphragm type	137
<i>Grycyyna O. R., Nahirnyj T. S.</i> On the influence of admixture on layer normal mode frequencies	142
<i>Hudz' R. V., Zhuravchak L. M., Pet'ovanyy A. T.</i> Solving of the flat static thermoelasticity problem for locally inhomogeneous solid by using the combination of boundary, near-boundary and finite elements methods	148
<i>Sukhorolsky M. A., Mykytyuk O. A., Lysyy I. P.</i> Interaction of the cylindrical shell with the thin-wall supports	157
<i>Rusynko A. K.</i> Analytical description of unsteady creep of metals after mechanics-thermal processing	163
