MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL FOUNDED IN 1975

Vol. 67, No. 3-4 **L'viv 2024**

C O N T E N T S

Ilkiv V. S., Strap N. I., Volianska I. I. Solvability of two-point boundary value problem for a differential equation with parameter under nonlocal conditions in a refined Sobolev scale 5

Kuz' A. M. Problem with integral conditions for partial differential equations with Cauchy – Euler operators 20

Buhrii O. M., Kutsevol I. I. Stochastic parabolic systems with variable exponents of nonlinearity 37

Makhnei O. V. Mixed problem for a singular differential equation for longitudinal vibrations of a rod 45

Domínguez Rodríguez G., Medina García J. A., Tapia González J. A., Bilyy O., Canto Santana G. I. Time-efficient sparse matrix computation using mesh resampling in finite difference analysis 53

Shavarovskii B. Z. A polynomial matrix oriented by characteristic roots with fixed values of some elements 64

Topolyuk Yu. P. Polynomial solutions of Hammerstein equations in problems with free phase 84

Tokovyy Yu. V., Yuzvyak M. Y. Solving the basic boundary value problems of elasticity theory for a strip via Vihak's function 97

Vaysfeld N. D., Zhuravlova Z. Yu. Exact solution to the poroelasticity problem for a multilayered rectangular domain 118

Protsiuk B. V., Shufliak V. M. Determination of the non-stationary temperature field of contacting thermosensitive half-spaces using Green's functions for a two-component medium 132

Terlets'kyi R. F., Humenchuk O. B. Study of thermal and stress states in tribological systems and irradiated two-layer plates with coating 142

Revenko V. P. Determination of the three-dimensional thermoelastic state of plates by means of harmonic functions 155

Serednytska Kh. I. Thermoelasticity problem for a body with a crack taking into account the longitudinal thermal conductivity of its faces 164

Marchuk M. V., Tuchapskyi R. I. Calculation of locally loaded thin orthotropic closed conical shells on the basis of classical and some refined theories . . . 172

Andreykiv O. Ye., Dolinska I. Ya., Nastasiak S. V. Mathematical models for predicting the residual lifetime of bimetallic plates with fatigue cracks under the influence of hydrogen-containing environment 195

Maksymovych M. O., Kuzio I. V. Calculation of stresses and effective elastic constants for composite plates with doubly periodic systems of rigid inclusions 203

NEW ITEMS and INFORMATION

To the 80th birth anniversary of Oleksandr Romanovych Hachkevych 217

To the 70th birth anniversary of Roman Mykhailovych Kushnir 221

To the 75th birth anniversary of Volodymyr Oleksandrovych Pelykh 227

ALPHABETICAL INDEX for 2024 (vol. 67) 231
